What Educators, Parents and Kids say about Heroical Storicals and Annie's Assemblies

"Annie spoke to almost 700 students at my school. They were captivated by what she said. I was impressed with her enthusiasm, and ability to connect with my students. Perhaps most importantly she inspired them to make reading a priority and she provided proven effective reading and writing tips."

Shirley Marshall Principal Villa Park Elementary School

"Annie made my job easier. She motivated my fifth grade students to become better thinkers, writers and readers. I have been teaching for over twenty years and that's not easy to do!"

Frank Vaiuso Teacher Newport Heights Elementary School

"Annie tells a good story in Heroical Storicals but at the same time there's enough engaging content to get a child thinking about history and character traits without them even knowing about it."

William Ross Parent

"Thank you for coming to our school. Heroical Storicals is the best and funniest book I have ever read."
